

Discussion Group

The group is an informal one that will meet monthly on the 3rd Thursday of the month.

The venue will be flexible. Members will offer their homes throughout the year.

The group has agreed that there will be no boundaries for discussion but no one will talk over anyone who is speaking. We will respect other people's views.

Suggested topics are:

*Should countries compensate those countries that have been affected by previous historical events?

*Is change a necessary function of human progress?

*Artificial intelligence. Should we welcome it or fear it?

*What is the point of religion?

*Should we be concerned about climate change?

*Is racism endemic in the UK

*Would the human race survive without the benefit of animals in our lives?

*Is HS2 important – how would the UK benefit from improved transport links?

For details of the next topic for discussion or general information about the group, please contact the Group Leader through the e-mail provided.
