

## WINE TASTING GROUP

It is proposed that this group will take the form of an informal monthly meeting where like-minded persons can meet to taste, compare and discuss a variety of wines in a fun and light-hearted atmosphere.

The two group leaders intend a happy and relaxed group, most probably meeting in each other's homes, and to this end propose an initial meeting as soon as possible for all interested parties to discuss the aspects of how the group is to be run and move forward. We will contact you with details. We both have knowledge of this type of group and have some excellent ideas but are adamant this would be your group. We intend to arrange a first meeting where all aspects including the financing of group meetings, frequency and topics would be discussed and agreed by all. We are looking forward to a successful, happy group
