

"The History Group are currently investigating the changing nature of commerce in Tetbury in the last 200 years, especially focussing on usage of buildings on Tetbury's main thoroughfares: Long St, Church St and the Market Place. One member is also researching those people connected with the Tetbury branch railway line 1889-1964. However, the Group Leader would be happy to coordinate any other areas of historical research that new members may wish to pursue."
