

WINE TASTING GROUP

There are currently 2 wine tasting groups, both with similar objectives.

We usually meet in members' homes with a theme for the evening, topics have included wines from various countries; Spanish wines, Italian wines, etc, comparing the same grapes from different continents, comparison of 2 red wines tasted at room temperature, from the fridge and having time to 'breathe', sparkling wines, etc.

We are convivial groups and members bring along some nibbles to share. All costs of wine are shared on the evening.

It is anticipated that in future we will have joint ventures to visit vineyards and have professional wine tastings.
