

"Got a guitar in the attic? Still tinkering with one? Like Blues? This group is for guitarists to get together to jam Blues. Bring your favourite blues song, jam over friends' 12 bar (mainly!) backing, sing if you want, play in a group, share chords, riffs and licks. We are non-judgemental amateurs.... ranging from just beginning to those who have played a bit. Acoustic and electric (electric guitars with small portable amps and quiet volume options please).

The main aim is to have fun! "
